

Mustache::PartialResolver

```
classDiagram
    Mustache::PartialFileLoader --|> Mustache::PartialResolver
    Mustache::PartialMap --|> Mustache::PartialResolver
```

The diagram illustrates a class hierarchy. At the top is the class `Mustache::PartialResolver`. Below it are two subclasses: `Mustache::PartialFileLoader` on the left and `Mustache::PartialMap` on the right. A horizontal line connects the two subclasses, with a vertical line and an upward-pointing arrow from the center of this line to the bottom of the `Mustache::PartialResolver` box, indicating inheritance.
